The Greek Export Almanac is a new radical catalog that is continuously updated with Greek Export Companies in a different interactive visual presentation of their products. It works as a powerful tool in finding partners in worldwide markets.

The export activity of Greek Companies includes foreign language sites, foreign language brochures, videos, photos and presentation of active certifications. The Greek Export Almanac is using all the latest technologies in a way that transforms a standard e-magazine to a huge encyclopedia for each product and each company.

The concerned wholesaler or importer, can wander in online brochures, certifications, corporate videos, connect to Facebook, be informed of the export manager of a Greek company and how to get in touch with him. (company profile, details).

And all that inside the environment provided by the Greek Export Almanac! Also, there is an iOS version for users of iPad and iPad Mini.

The Greek Export Almanac will be forwarded to all embassies and commercial attachés of foreign countries in Greece, will be sent to all Embassies and Consulates Abroad (in the most important potential markets), Ministries of Commerce of the most important countries and will also be sent to 100 + major Greek personalities living and working abroad.

The Greek Export Almanac is a unique product that promotes to an outstanding level Greek products and Greek major export companies.
